

AIMÉE JOARISTI

Aimée Joaristi is a Costa Rican artist who recently signed with Klaus Steinmetz gallery in Costa Rica and she is also represented by J.M. Sori in Miami Florida, an important gallery for Latin-American Contemporary Art in USA, which represents others well known artists such as Tomás Sánchez Requeiro, Torres Garcia and Fernando Botero.

Joaristi uses the immediacy and quality of improvisation and compositional elements seizing the instinctive opportunities of a scream with no figurative volition to turn down reality, with no subject or dogma, dismantling the traditional system of composition, discovering the dynamic-fractal view of reality.

Joaristi recombines and builds diverse meanings that are the points of departure for any transformation. She allows her awareness to flow, questioning herself through her lines, cuts and sprays, willing to share this experience with you.
